Hard Skills: Software Development | Unit Testing | Database Management | Web Development | Game Development

Soft Skills: Communication | Adaptability | Leadership | Time Management | Problem Solving | Persistence

PROJECTS

Web Based Learning Management System (ASP.NET)

- Worked in a team to create a website, database, and backend system to manage student classes, assignments, as well as allowing professors to create new classes and assignments students are able to join.
- Created a database to store student, professor, and class data that can be accessed efficiently
- Created effective front-end pages maximizing ease-of-use while minimizing actions required to access website functions.

Scholarship Account Registration Email Verification System (Backend)

- Worked in a team to create an API endpoint to send emails (singular or multiple) to verify newly registered accounts, as well as invite users to register as a specific role.
-

WORK EXPERIENCE

Subway - Shift Supervisor

March '17 - Present

- Managed a team of experienced and inexperienced workers to optimize customer satisfaction and maintain workplace tasks.
- Help maintain inventory and monetary documentation.
- Trained incoming employees to efficiently perform workplace tasks.
